Organization Statement

The Jewel of Harlem Centers

Founded in 2000 by **Moreau LMSW Children & Family Services, P.C.**, **The Jewel of Harlem Centers** opened its doors on Convent Avenue in the historic Sugar Hill neighborhood of Central Harlem, New York City. Since our inception, we have remained steadfast in our commitment to providing exceptional early childhood education and childcare services to families throughout New York City.

At The Jewel of Harlem Centers, we offer high-quality preschool education within a warm, nurturing, and engaging environment where children feel safe, supported, and inspired to learn. We recognize that selecting the right program for a child is one of the most important decisions a family can make, and we are dedicated to exceeding the expectations of the families we serve.

Our educational approach combines purposeful learning with creativity, imagination, and fun. Through thoughtfully planned experiences and meaningful interactions, we encourage children to become confident, curious, and lifelong learners. Each day is designed to foster discovery, exploration, and a genuine love of learning.

Our comprehensive curriculum features enriching, hands-on activities that support early brain development and promote growth across all developmental domains. Through creative play, collaborative learning, and age-appropriate experiences, children build critical thinking, communication, social-emotional, and problem-solving skills while enjoying the process of

learning.

Located in a beautiful, modern facility, our preschool provides opportunities for children to develop physically, cognitively, socially, and emotionally. Our full-day programs, research-based curriculum, and highly qualified educators work together to prepare children for success in elementary school and beyond. By building a strong educational foundation in the earliest years, we empower every child to thrive as a confident learner and an engaged member of their community. The Department of Education contracts the program.
